

Compton Computers (P) Ltd.

Since 1993

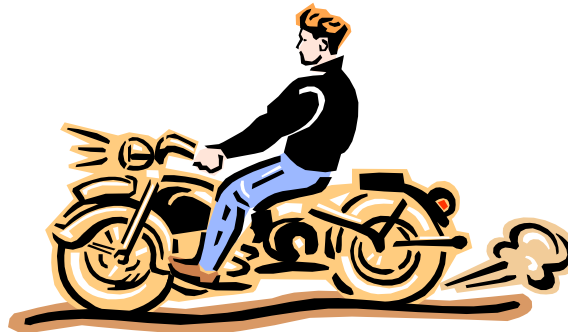

Established in 1993 we started as a solution provider for IT requirements of SME's (Small & medium Enterprises), but today we are one of the largest SI and PC reseller in National Capital region. We have positioned ourselves as **premium business partners for HP**.

It is a very rare status offered to few select partners who expertise in HP businesses by investing into understanding the company products. Premium partners are group of focus partners of HP who spend time and money to educate their staff and customers to be experts in HP products. We have quality workforce of 40 people plus resident engineers who enable us to work at the cutting edge of technology. We have fully computerized service center that maps every service call till it is fully completed with complete customer satisfaction. We are offering services around the

Compton is on the move with consistent growth since it's inception.

clock with special options of resident engineers giving them complete support through back-office. We have over 9000 customers in and around Delhi, such a large base of customers is kept happy and satisfied only by using the technology which promote to our customers. Our software allow us to reduce the time to reach customer for his call, it allows us to have history of the clients machines and problems coming in it so that he can be serviced effectively and fast which allow him to focus more on his own business. We have an exclusive R & D team which works hard to offer solutions to our valued customers based on new technologies which help them to remain in control and grow their business. Our R & D team tries to find solutions to customer's problems which are price effective and suit his business requirements, like WiFi, Security, Anti Virus and ad-ware, spyware protections. We were one of the pioneers in IT retail, today we be-

lieve customer is so mature that he wants to understand his options before making purchases. He wants to touch and feel the products before he actually goes in for the purchase. Our retail showroom gives customer a chance to evaluate all his options and see them before making a purchased decision. Adding a new feather to our cap we have done some very good projects in wireless. We have created huge wireless LANs and offer complete wireless printing solution.

We are committed to providing the latest technology that works and there is a greater return on technology investments for the customer. We ensure that our customers use the technology to gain edge over competitors and technology works hand in hand with the business strategy and model of the organization. Our
